An For Circuit Court Clerk, Xray photograph taken after his death revealed a dislocation between the first and second cervical vertebrae.

FOOD SUPPLY SHORT: -Secretary James Wilson says in a recent interview regarding the statement of Jas. J. Hill that this nation is facing a shortage in its food supply, that it is a question that is commanding the attention of the Department over which he presides and that he has set a number of Government scientists to work to investigate the conditions. He assigns two causes for the lean years. One is the tendency of the immigrant class to settle in the cities, but worst of all he thinks is the failure of the American farmer to get out of his accrage by conservation of soil and rotation of crops the amount of yield he should.

CANNON FOR WATERWAYS:-Speaker Cannon aroused enthusiasm a Cario, Ill. recently when he said, "I'm For Coroner, going to make a big speech in a single sentence. You want to know what I think of the waterways? Read Pres. Taft's speech at St. Louis yesterday For Magistrate Sixth District, and you wi'l know what I believe."

SUFFRAGETTES GET GAY:-Mrs. Chapin, a suffragette furnished an early morning thrill at the Bermondsey by-election day when she smashed a bottle containing corrosive acid upon a ballot box. Her intention evidently was to destroy the ballots in the box as a protest against the exclusion of women from the franchise. Some of the election officers were painfully burned and the woman was arrested.

35 PERISH IN SEA:-The six men who were rescued from the rigging of the stranded steamer Hestia. Oct. 27, are thought to be the only survivors of the forty-one men and boys who were aboard the Donaldson lines when she struck Proprietor Ledge off the Maine coast. Several bodies drifted to the shore later but have not been indentified.

LABOR MEN GUILTY:-The district court of appeals Monday affirmed the decree of the Supreme Court of the District of Columbia, adjudging President Samuel Gompers, Sec'y. Frank Morrison and Vice President John Mitchell of the American Federation of Labor guilty of contempt of court in the Buck Stove and Range cace. Pending appeal the three defendants were allowed to give bail for their appearance. An attempt will be made to appeal the case to the U. S. Supreme court.

FAMILY MURDERED:-The family of C. W. Hood, including his daughter Emma, aged 12, Carolina, 40 and Roy 25, were murdered as they slept Sunday night and their home burned to conceal the crime. Major C. W. Hood was an aged Union veteran and had alays been a peaceful citizen. The authorities say suspicion points to a mar who has been paying attention to Carolina Hood for some time and who has disappeared from the community. An effort is being made to

locate him. KILLS WIFE:-Daniel Schoke, a butcher of Pine Grove, Pa., cut off the heads of his wife and twelve year old daughter and then committed suicide by shooting himself. The discovery was made Tuesday morning when neighbors found Schoke lying on the first floor and the bodies of his wife and child on a bed on the second floor. The girl's head was entirely severed.

It is believed Schoke was insane. MLILION FOR WORMS:-A gift of one million dollars by John D. Rockefeller to fight the"hook-worm disease" was announced at the office of the Standard Oil Company in New York City. A number of well known educators and scientists from institutions of learning in the South were called in conference with Mr. Rockefeller's representative at the Standard Oil Company offices recently and at that meeting a commssion was organized to carry on a campaign against the disease.

#### MISSING THE BEST THINGS.

There is a peculiar kind of meaness which grips some people and makes them unable to take pleasure in anything unless they have it all their own, or at most, share it with a very few people. They call themselves "exclusive", and as a matter of fact, they "exclude" most of the real pleasure and happiness of life.

A wealthy woman in Ireland was sick once, just like commrn people, and the nurse brought her a poached egg for her breakfast. e ate it with pleasure, as any of us would, and, as she sank back into her soft bed, remaked: "How delicious an egg is! What a pity they are so cheap that every body can have them!" Isn't that a nice way to look at it! Wanted the pleasure of eating eggs all to herself.

It is so with many things. Such people want fruit out of season, when it costs horribly; they want furniture built differently from other people's and books that other people can't understand. These people don't understand them either, but think it makes them "exclusive". They pretend to like to hear "Symphonies" that they don't enjoy and go to see filthy plays that make them commit suicide -and all because they feel that it would be common and cheap to

like what every healthy man or woman likes. Providence was very kind to arrang matters so that that kind of people are always cheating themselves. The commonest things are the best anywhere-there is no drink so good as cold water, and the next best is good milk. Coffee, the third cheapest, comes third in excllence. It is so with foods, eggs and corn bread and good pork taste as well in a cabin as any fancy dish ever did in a high priced resturant or a king's palace, and the potato baked in the ashes better than any other. The fresh air of a cool morning is more satisfying to both soul and body than any stuffy ball room or palatial parior can be, and no man is rich enough to hang on his walls such a picture as the Almighty flings across the Heavens twice daily, or as can be seen from the front door of any cabin home in all our mountains. No sculptor ever made for his rich patrons a statue which had the beauty every boyish lover sees in the figure of some blushing girl. No costly, damask covered bed can bring so sweet a slumber as comes to the honestly weary worker on his humble couch, and no caterer can give to food the wonderful taste which the sauce of appetite uses to enrich the meal of the laborer. And finally, no blood-stained wealth can purchase such freedom as comes to every bare footed, bare headed boy a fishing along the creek; nor the peaceful rest which greets at night tha man, however poor, who has that day worked well for his home and family.

Riches! Wealth! Luxury! What are they, indeed, that they should be purchased at the cost of such joys as these? And many are the rich men who would give their wealth, riches and luxury for the power to enjoy the simple, high delights with which every good home is blest. So if sometimes the mountain fare is a little plain, and the mountain bed a little hard, we can well afford to remember that within the humble home is more happiness that can be found under the broad and magnificent roof of any millionaire's palace.

An Old Graduate's Impressions, as He Returns After Years-Being a Doctor He Thinks the Hospital the Greatest Improvement-How Others See Us.

To come back to Berea after ten years absence, is like coming to a town made over so thoroughly that it is hardly recognizable.

The long lines of coment walks replacing the old clay paths and cinder walks, and the well painted and repaired houses of good modern style in place of the shacks that were so prevalent in the old days are a pleasant sight to one who remembers years of the happiest period of his life spent here and who acquired the best little woman in the world for his wife as a gift from the dear old town. To see the campus filling up with fine large buildings of beautiful design and good materials, was another thing to fill him with gladness.

A large corps of well trained, devoted Christian men and women who, altho he was a personal stranger, when they learned he was an alumnus made him feel that he was welcome, and gave him every courtesy in their power, also made an old grad feel very good.

While he was in charge of that Bureau it made the contribution for Negro Education from which Berea College built Howard Hall. Gen. Howard made a personal visit here in the Spring of 1897, speaking a couple of times and being the central figure of a large gathering. SYNOPSIS.

Murray Sinclair and his gang of wreckers were called out to clear the railroad tracks at Smoky Creek. McCloud, a young road superintendent, caught Sinclair and his men in the act of looting the wrecked train. Sinclair pleaded in nocence, declaring it only amounted to a small sum—a treat for the men. McCloud discharged the whole outfit and ordered the wreckage burned. McCloud became acquainted with Dicksie Dunning, a girl of the west, who came to look at the wreck. She gave him a message for Sinclair. "Whispering" Gordon Smith told President Bucks of the railroad, of McCloud's brave fight against a gang of crazed miners and that was the reason for the superintendent's appointment to his high office. McCloud arranged to board at the boarding house of Mrs. Sinclair, the ex-foreman's deserted wife. Dicksie Dunning was the daughter of the late Richard Dunning, who had died of a broken heart shortly after his wife's demise, which occurred after one year of married life. Sinclair visited Marion Sinclair's shop and a fight between him and McCloud was narrowly averted. Smoky Creek bridge was mysteriously burned. McCloud prepared to face the situation. President Bucks notified Smith that he had work ahead. McCloud worked for days and finally got the division running in fairly good order. He overheard Dicksie criticising his methods, to Marion Sinclair. A stock train was wrecked by an open switch. Later a passenger train was field up and the express car robbed. Two men of a posse pursuing the bandits were killed. McCloud was notified that Whispering Smith was to hunt the desperadoes. Bill Dancling, a road lineman, proposed that Sinclair and his gang be sent to hunt the bandits. A stranger, apparently with authority, told him to go ahead. Dancing was told the stranger was "Whispering Smith." Smith approached Sinclair. He tried to buy him off, but failed. He warned McCloud was carried forcibly into Lance Dunning's presence. Dunning refused the railroad aright-of-way, he had already signed for. On his way home a shot passed

could have taken camp fare with the men. Gordon stayed there with him."

Dicksie held his hat in her hand, and her eyes were bright in the firelight. Puss must have thought the two made a handsome couple, for she lingered, as she started for the kitchen, to look back.

"Puss." exclaimed her mistress, "fry a chicken right away! A big one, Puss! Mr. McCloud is very hungry, I know. And be quick, do! Oh, how is the river, Mr. McCloud?"

"Behaving like a lamb. It hasn't fallen much, but the pressure seems to be off the bank, if you know what that means?"

"You must be a magician! Things changed the minute you came!"

"The last doctor usually gets credit for the cure, you know."

"Oh, I know all about that. Don't you want to freshen up? Should you mind coming right to my room? Marion is in hers," explained Dicksie, "and I am never sure of Cousin Lance'she has so many boots.'

When she had disposed of McCloud she flew to the kitchen. Puss was starting after a chicken. "Take & lantern, Puss!" whispered Dicksie, ve hemently.

"No, indeed; dis nigger don' need no lantern fo' chickens, Miss Dicksie.' "But get a good one, Puss, and make haste, do! Mr. McClord must be starved! Where is the baking pow-

"Oh, yes, Puss, certainly, I know, of course; only, get a nice chicken!" and with the parting admonition Dicksie, smoothing her hair wildly, hastened back to the living room.

But the harm was done. Puss, more excited than her mistress, lost her head when she got to the chicken-yard, and with sufficiently bad results. When Dicksie ran out a few moments after-Cloud, Puss was calmly wiping her

Dicksie murmured.

He looked at Marion. "That's a shot at me. You don't want to go down, do you?" he asked, ironically, looking from one to the other.

"Why, of course, I'll go down," responded Dicksie, promptly. "Marion caught cold last night, I guess, so you will excuse her, I know. I will be back in an hour, Marion, and you can toast your cold while I'm gone.'

"But you mustn't go alone!" protested McCloud.

Dicksie lifted her chin the least bit. "I shall be going with you, shall I not?

"But I can go," interposed Marion, rising.

"Not at all; you can not go!" nounced Dicksie. "I can protect both Mr. McCloud and myself. If he should arrive down there under the wing of two women he would never hear the last of it. I am mistress here still, I think; and I sha'n't be leaving home,

you know, to make the trip!" McCloud looked at Marion. never worry over what can't helped-though it is dollars cents that those fellows don't need me down there any more than a cat needs two tails. And how will you get back?" he asked, turning to Dicksie.

"I will ride back!" returned Dickste, loftily. "But you may, if you like,

help me get my horse up. "Are you sure you can find

way back?" persisted McCloud. Dicksie looked at him in surprise "Find my way back?" she echoed, softly. "I could not lose it. I can ride over any part of this country at noon or at midnight, asleep or awake, with a saddle or without, with a bridle or without, with a trail or without. I've ridden every horse that has ever come on the Crawling Stone ranch. I am afraid he will get into some shootcould ride when I was three years old. Find my way back?"

The messenger had gone when two rode from the house. The sky was heavily overcast, and the wind blew such a gale from the south and west that one could hardly hear what the other said. McCloud could not have ridden from the house to the barn in the utter darkness, but his frequently on the trail for him to come up with her, and after they had afraid of you myself until-" crossed the alfalfa fields McCloud did not care whether they ever found the path again or not. "It's great, isn't it?" he exclaimed, coming up to her after opening a gate in the dark.

"Where are you?" "This way," laughed Dicksie. "Look out for the trail here. Give me your hand and let your horse have his head. If he slips, drop off quick on this side." McCloud caught her hand. They rode for a moment in silence, the horses stepping cautiously. "All right now," said Dicksie; "you may let go." But McCloud kept his horse up close and clung to the warm hand. "The camp is just around the bill," murmured Dicksie, trying to pull away. "But of course if you would like to ride in holding my hand you

so the trail turned, and the camp-fire, whipped in the high wind, blazed before them. Whispering Smith and Lance Dunning were sitting together as the two galloped up. Smith helped Dicksie to alight. She was conscious of her color and her eyes were now unduly bright. Moreover, Whispering Smith's glance rested so calmly on both McCloud's face and her own that Dicksie felt as

alone with Whispering Smith. He made a seat for her on the windward side of the big fire. When she had seated herself she looked up in great contentment to ask if he was not going to sit down beside her. The brown coat, the high black hat, and the big eyes of Whispering Smith had already become a part of her mental store. She saw that he seemed preoccupied, and sought to draw him out

of his abstraction. "I am so glad you and Mr. McCloud are getting acquainted with Cousin Lance," she said .. "And do you mind my giving you a confidence, Mr. Smith? Lance has been so unreasonable about this matter of the railroad's coming up the valley and powwowing so much with lawyers and ranchers that he has been forgetting back. Whispering Smith looked from the fire into Dicksie's eyes. should you say if I gave you a confidence?"

He answered without hesitation. "You shall see. Now, I have many things I can't talk about, you understand. But if I had to give you a secret this instant that carried my

"If you will have it so, Mr. Dunning, you may stand watch to-night and I will go to this is what I have been leading up the house."

Riding back with McCloud, Dicksie and Whispering Smith discussed the flood. McCloud disclaimed credit for the improvement in the situation. "If the current had held against us as it did yesterday, nothing I could have done would have turned it," he said.

"Honesty is the best policy, of course," observed Whispering Smith. "I like to see a modest man-and you want to remind him of all this when he sends in his bill," he suggested, speaking to Dicksie in the dark. "But." he added, turning to McCloud, "admitting that you are right, don't take the trouble to advertise your view of it around here. It would be only decent strategy for us in the valley just now to take a little of the credit due to the wind."

(TO BE CONTINUED.)

Needed to Begin at Home. Two young women were scheduled to read papers on the rearing of children in connection with a mothers' meeting, their husbands being left at home to put the two children to bed. They lived in adjoining apartments.

The young women attended the meeting, read the papers and after the discussion on the care of infants adjourned to the home of a friend for refreshments. When they reached home at 11:30 the two husbands had joined forces and were frantically pacing the floor, each carrying a shrieking baby.

PLACE.—St. Paul's bay on the north-east shore of the Island of Malta, in the Mediterranean sea, 150 miles southwest of the most southerly point of Italy.

Suggestion and Practical Thought. What the storm and wreck revealed as to the character of Paul, the missionary Hero:

For nearly seven months we have been studying the character of Paul under a great variety of circumstances. We have found him conscientious, consecrated to God, devoted to the good and the salvation of his fellow men, energetic, wise, courageous, joyful, faithful, persevering, independent, unselfish, courteous, of strong feelings, but self-controlled, saintly and true. We have seen him chiefly at his missionary work.

In this storm and wreck we see him from another point of view, connected with bodily interests, physical needs, things pertaining to ordinary human life, as a man among men, not, as one has said, "a long-distance pastor," but in close touch with humanity.

I. The Manly Authority of a Tested Character .- Vs. 27-32. "The fourteenth night" (v. 27) from the time they left Fair Havens in Crete, when storm began. "Driven up and down," tossed by the waves and "borne along" "in Adria," not the Adriatic sea, but the name then given to the central basin of the Mediter-ranean. "The shipmen deemed that they drew near to some country."

29. "They cast four anchors out of the stern." Anchoring from the stern is unusual, but much the best under the circumstances, for it would leave them free to sail to either shore when daylight come. During the dreary waiting, while they "wished for the day," the sailors tried to save themselves at the expense of all the rest by means of the boat, the one visible way of reaching the shore. But Paul, noticing the plan, appealed to the centurion and the soldiers to put a stop to it. The sailors had the boat, but the soldiers had the weapons and the power. Paul therefore appealed to the soldiers, for he saw clearly that (v. 31) "except these abide in the ship, ye cannot be saved," as had been promised. Those who went in the boat would doubtless be drowned, and even if they reached the shore, there were none left to manage the ship, especially if the officers of the ship were among those who planned so selfishly for their own safety.

The soldiers put an end to the plan by cutting the ropes and setting the boat adrift.

"Nothing was too good for Paul after that, and when at last the ship broke, and the roll call was made on land, every man, soldier, and sailor sang out cheerily, 'Here,' And when at last Paul got to Rome, Capt. Julius and his soldiers did not soon tire of telling to wife and child and sweetheart how the little preacher had saved them from the angry deep."

II. Care for the Physical Comfort and Health of His Companions .- Vs. 33-38. "While the day was coming." As soon as it was light enough to find food. "Continued fasting," took no

34. "I pray you take some meat," food; "for your health," safety, they would need to put their bodies in the best condition to give them the strength needed to reach the shore.

35. "He began to eat." To lead them on by his example, he himself did what he advised them to do.

36. "Then were they all of good cheer." "The hearty cheerfulness (is it too colloquial a phrase to say the 'pluck?') of the apostle had communicated itself, as by a kind of electric sympathy, to his companions."

III. Paul Doing the Commonest Duties to Help his Companions.-Acts 28:1-6. 1. "They knew," recognized, "that the island was called Melita," now shortened into "Malta."

IV. Paul Healing the Sick .- Vs. 7-10. Publius, the governor of the island, living not far away, entertained the company for three days till they had time to make other arrangements.

The father of the governor lay critically sick of dysentery. Paul prayed for him and laid his hands on him, and healed him. This gave Paul an opportunity to preach the gospel. For Paul had no credentials that would be of use, and as a prisoner suspicion would be cast upon him. So that God himself gave him the best credentials by bestowing on him miraculous pow-Paul healed many others; and as Christ's works of healing showed his kindness and love for men, and revealed the loving nature of our heavenly Father, so Paul's aid for the sick expressed the kindliness of the gospel.

Casting Away Cares.

Treat cares as you treat sins. Hand them over to Jesus one by one as they occur. Commit them to him. Roll them upon him. Make them his. By an act of faith look to him, saying: "This, Lord, and this and this, I cannot bear. Thou hast taken my sins. Take my cares. I lay them upon thee and trust thee to do for me all, and more than all, I need. I will trust and be not afraid."-Rev. F. B. Meyer.

#### RUSSIAN CAFTAN MUCH LIKED

Practical Fashion Has Been Eagerly Taken Up and Made a Season's Mode.

One of the newest and most practical of fashions that are being adopted the Russian caftan, a coat-like gar ment which is similar to that worn by Tolstoy, the great Russian author, in pictures, with which we are familiar.

The coat has a round or square and a straight bottom edge that ends held to be by most churches. just above the knees. It is confined at the waist line by a satin belt: or. to make it more realistic, a silk cord.

This style may be developed to the extreme, but in its simpler form is more dignified.

The style promises to be a popular one for smart fall and winter costumes. Frocks of woolen fabric, with blouses of net and silk and a caftan of the material trimmed with satin in a harmonizing tone, or, what is safer yet, black, will be in good taste for the well-dressed woman.

New Type of Gown.

Pretty semi-evening gowns, called abroad casino gowns, are being worn with but slight decolletage and transparent guimpes of tulle or mousseline. The materials used on gowns of this with panel back and front type are embroideries, laces or crepe what passe. Many of them are as the guimpe is always collarless. beautiful dog collars of jeweled velvet or jet are worn, so that the gown may be becoming with a hat.

Somehow a collarless gown and a picture hat are not always a pretty combination.

Tunics.

Curiously lovely effects are gained in little informal evening and after noon gowns by the use of a chiffon draped tunic over a gown of a contrasting shade of satin, with a bit of embroidery on the edge of the tunic. Some striking combinations are nasturtium orange chiffon with touches of gold over gray green satin; dark gray chiffon with silver over light blue, and brilliant currant red chiffon in bronze, gold and deep reds.

Thirteen Chicago University Professors O. K. the Statement.

Holy Book Is Neither the Compendium of Truth Nor Theology, Declares an Official Editorial in the Biblical World.

Chicago.-The divinity school of the University of Chicago gave the world another startling bit of advanced theology when the 13 editors of the Biblical World put their O. K. on the statement that the Bible is not a compendium of ethics and never was intended to be.

The argument appeared in the form of an editorial in the magazine, of which Prof. Ernest DeWitt Burton, D. D., head of the department of New Testament literature and interpretation, is the editor-in-chief. The associate editors are members of the faculty, and their unanimous approval is necessary before an editorial goes to the printer. Often two or three collaborate on an article.

The editorial makes the argument that the ethical methods of Jesus were ideal in that they were elastic and adjusted to fit conditions as they were found.

In an interview Dr. Burton elaborat ed on the presentments made in the editorial in a manner to emphasize what many persons had read between the lines, viz., that Sunday basebal! and other personal enjoyment of the Sabbath were not necessarily sinful, in the minds of the 13 professors. Dr. Burton did not mention baseball in his discourse nor did he mention saloons but he left room for some very plain inferences. As did the editorial, he held that the Bible was not an ironclad depository of truth and arbi-

## Expenses, Regulations, Opening Days.

Berea College is not a money-making institution. All the money received from students is paid out for their benefit, and the School expends on an average upon each student about fifty dollars a year more than he pays in. This great deficit is made up by the gifts of Christian and patriotic people who are supporting Berea in order that it may train young men and women for lives of usefulness.

OUR SCHOOL IS LIKE A FAMILY, with careful regulations to protect the character and reputation of the young people. Our students come from the best families and are earnest to do well and improve. For any who may be sick the College provides doctor and nurse without extra charge.

All except those with parents in Berea live in College buildings, and assist in work of boarding hall, farm and shops, receiving valuable training, and getting pay according to the value of their labor. Except in winter it is expected that all will have a chance to earn as much as 35 cents a week. Some who need to earn more may, by writing to the Secretary before coming, secure extra employment so as to earn from 50 cents to one dollar a week

PERSONAL EXPENSES for clothing, laundry, postage, books, etc., vary, with different people. Berea favors plain clothing. Our climate is the best, but as students must attend classes regardless of the weather, warm wraps and underclothing, umbrellas and overshoes, are necessary. The Co-operative Store furnishes books, toilet articles, work uniforms, umbrellas and other necessary articles at cost.

LIVING EXPENSES are really below cost. The College asks no rent for the fine buildings in which students live, charging only enough room rent to pay for cleaning, repairs, fuel, lights, and washing of bedding and towels. For table board, without coffee or extras, \$1.35 a week in the fall, and \$1.50 in winter. For room, furnished, fuel, lights, washing of bedding, 40 cents a week in fall and spring, 50 cents in winter

SCHOOL FEES are two. First a "Dollar Deposit," as guarantee for return of room key, library books, etc. This is paid but once, and is returned when the student departs.

Second an "Incidental Fee" to help on expenses for care of school buildings, hospital library, etc. (Students pay nothing for tuition or services of teachers-all our instruction is a free gift). The Incidental Fee for most students is \$5.00 a term, \$6 in Academy and Normal, and \$7.00 in Collo-

as passed by the last General Assem-

Of course the county Board may supplement these salaries from the county fund if it seems wise,

# to users of Mother's Cereals

These cereals are famous for quality among the housewives of America.

Carefully our buyers collect the finest grain in all American markets. They are known as being finicky. Carefully our mills pick from this cream the ripest, choicest grains. Carefully our mill hands pick from these kernels the biggest, the fattest, the finest. Only the best grains ever find their way to a Mother's package. Carefully this product is selected from the select, is cleansed, then sterilized and packed in a Mother's sanitary package. Here is a list of Mother's Cereals. Every one is the best of its kind.

Mother's Oats (regular and family sizes) Mother's Yellow Corn Meal Not like other oats. Not only rolled to make their cooking easy, but crushed to make them easily digested.

# FREES SUGAR MEN

FAR-REACHING DECISION PER-MITS THEM TO ESCAPE CRIMINAL PROSECUTION.

#### SETBACK TO GOVERNMENT

Judge Holt Holds That Those Indicted Along with American Refining Company Are Exempt-Because of Statute of Limitations.

New York. - Judge Holt, of the United States circuit court handed down a decision which will enable Gustav E. Kissel and Thomas B. Harned, who were indicted with the American Sugar Refining Company on the charge of criminal conspiracy to escape prosecution under the provisions of the statute of limitations.

The opinion is a far-reaching one, according to the government attorneys, and, if upheld, is likely to prove a serious setback to the government in many cases brought under the law prohibiting conspiracy in restraint of trade.

The indictments were brought in connection with the closing of the Pennsylvania Sugar Refining Company's independent plant in 1903. Kissel and Harned pleaded that the plant was closed down and the entire transaction for which they were indicted was completed before January 4, 1903. Therefore, they said, the indictment, filed more than five years later, was barred under the statute of limitations, which sets a limit of three years for prosecution of "crimes not capi-

The government attorneys, on the other hand, pleaded that the crime charged against Kissel and Harned was a "continuous offense," and that as long as the conspiracy continued and the plant of the Pennsylvania company remained closed through the action of the American Sugar Refining Company, the three-year period of the statute of limitations should not begin to run.

Woman and Child in Auto Drive or Track in Front of Fast Approaching Train.

Kenosha, Wis. - Caught between the gates of the Chicago & Northwestern railway, with a train coming at the rate of 25 miles an hour, Mrs. Charles Chester Allen, wife of an official of the Central Leather Company, and her little son had a narrow escape from death here.

Mrs. Allen was driving an automobie and when she drove on the track she did not see the train approaching from the north. Just as she passed the center of the tracks the gates came down with a bang. She saw her peril in a second and, clasping the littie boy about the neck, she leaped out of the automobile, at the same time flagging the train. The engineer saw A discriminating person hearing her signal and brought the train to a one of the popular songs of the day standstill when it was within a short

#### DOES NOT REDUCE DEFICIT

New Tariff Law Fails to Meet Predictions of Its Authors, According to Treasury Statement.

Washington.-The new tariff law not reducing the treasury deficit, as predicted by its authors. It is shown by a statement that the deficit for the fiscal year up to October 23 was more than \$32,000,000.

For the same period last year the deficit was only \$7,000,000 greater, or \$39,997,000. The new tariff has produced \$23,376,000 more than the Dingley law in the same months last year, and had the government kept within its expenditures of the former year the result would have been a deficit of only \$16,000,000. But the report shows that the expenses were increased more than \$16,000,000 above that of the same period last year, most of it in the war and navy depart-

## LURTON LEADS FOR JUSTICE

MOST PROBABLE SUCCESSOR TO LATE RUFUS W. PECKHAM.

is an Old Associate and Intimate Friend of President Taft.

Washington.-The vacancy on the bench of the supreme court of the United States, caused by the death of Associate Judge Rufus W. Peckham of New York, is the subject of most of the gossip in Washington just now.

It is popularly speaking, the most important matter which will confront that Stanley had been drinking and President Taft upon his return to the Well-informed national capital. prophets here name Horace H Lurton of Nashville, judge of the United States circuit court in the Sixth circuit, as most probably Justice Peckham's successor, with Solicitor General Lloyd W. Bowers of the department of justice as the probability for the next vacancy in the court. Mr. Bowers is thought by many to stand a very good chance of getting this one.

Judge Lurton sat on the same judicial bench with Mr. Taft, and was the latter's choice for the vacancy that was later filled by the appoint ment of William H. Moody of Massachusetts. Mr. Taft was secretary of war when he made the recommenda tion of Mr. Lurton to President Roose velt, and was, it is said, very much disappointed when his old associate throughout the well-disposed part and intimate friend was not appoint ed. Mr. Lurton is now about 62 visit has not been marked by CUBAN OFFICIALS FIGHT DUEL years old and would have ten years to sinister incidents. The toasts exserve before retirement.

#### FIVE DEAD IN INDIAN FEUD

Brave's Demand for Girl Slave Starts War in Which Family Is Exterminated.

San Francisco.-The story of a renarkable feud between Indians and nalf-breeds in the mountains of Humboldt county was revealed in the arrest of James Donnelly, a half-

breed Klamath Indian, for murder. The feud started ten years ago, after the accidental drowning of the little son of Jimmie James, an Indian. The boy had been playing with two Indian girls, see-sawing on a limb slipped into the water. The father of the boy demanded that one of the girls should be given to him as a slave to recompense him for the death of the boy, but the demand was refused and the feud started.

A few days afterward Jimmie James was found dead near Mad river, shot through the back. Then the James faction killed a crippled Indian.

A few days later Harper Bill, one of the other faction, was found dead with several bullets in his body. This was followed by the murder of Harcannep, alias Chickasa, for which Donnelly is held under indictment.

Chickasa was the last member of the James family. His death ended the feud.

GEBHARDT AT NEW YORK CON-FESSES TO THREE MURDERS.

Wife Says He Had Seven Former Wives All of Whom Are Dead.

New York - Traces of what may prove to have been another mur der committed by Frederick Gebhardt were found by the police. In the jail at Islip, where he is held as the slaver of Anna Luther, Gebhardt admitted to Coroner Savage of Suffolk county that he had been guilty of three such crimes, all against women, for the purpose of securing their money. He said he would make a full statement.

Mrs. Gebhardt, when shown the Sing Sing record of her husband, broke down completely for the first time and repeated the statement made the night of her husband's arrest and afterwards denied, that she knew Gebhardt had seven former wives, all of whom were in their graves. She said that if the truth were known he would be found to be another Johann Hoch, the Chicago wife-murderer.

#### DANE BELIEVES IN DR. COOK

Rasmussen Reiterates His Statement Made to Wife-Saw Doctor's Diary -Does Not Think It False.

Copenhagen. - Knud Rasmussen, the Danish explorer, whose name has been closely associated with the north pole controversy, arrived here on the government steamer Hans Egede from Greenland.

Questioned as to his views on Dr. Cook's expedition, he repeated the statement made by him in a letter to his wife that he confidently believed Dr. Cook reached the pole. He said Pana, Ill,-Frank Stanley was shot he had seen Dr. Cook's diary and and instantly killed by his wife could not believe it false.

of Italian society because the czar's changed by the sovereigns are generally applauded. The nation is waking up to the fact that the meeting is the outward symbol of important secret understandings and the comment of the press shows that according to well-informed opinion Italy is playing a bold game.

Few political observers would have credited the king and the government with enough courage openly to fraternize with the Russian ruler, especially since the czar offered Austria almost an insult by making a wide detour to avoid crossing Austrian soil. Italian feeling is tending still more strongly toward rapprochement with Russia and the opinion is widespread that Italy really had no choice except to run the risk of offending Austria of a tree overhanging a creek, but and Germany, if those nations wish to take offense.

#### PICTURES TRAFFIC IN GIRLS

Appeal Is Made at W. C. T. U. Convention to Work on State Legislature for More Drastic Laws.

Omaha, Neb. - Dr. O. Edward Janney of Baltimore, Md., chairman of the national vigilance committee for the suppression of the "white slave" traffic, gave a stirring address before the thirty-sixth annual convention of the National Woman's Christian Temperance union.

Dr. Janney declared that the traffic in girls has become an evil more widespread than the public imagines, reaching out into every part of this country and even across the ocean for victims.

The federal government, he said, is doing all it can to suppress the traffic, but is hampered by a supreme court decision that this is a matter for the police power of the states to deal with. He urged the members of the W. C. T. U. to influence their state legislatures to pass more drastic laws on this subject.

#### LIQUOR WAS NOT THE CAUSE

Engineer, Mortally Injured by Wreck, Insists Rescuers Satisfy Themselves He Wasn't Drunk.

A lesson that should have a powerful effect may be read in the story that is told of Engineer Bush of the Southern railway, whose train was wrecked the other day near Bristol, Bush was pinned under the engine, but was finally extricated, suffering from mortal injuries. When the passengers tried to revive his waning strength by a stimulant he protested. He first asked them to satisfy themselves that he had not been drinking before taking the liquor offered. His record, he said, was all he had, and if he had to die he wanted it known that the wreck was not due to his intemperance.

The young men of this country are being made to realize as never before that responsibility in business life is one of the most valuable assets that a worker in the field of human effort can have. As never before the standard of personal trustworthiness is being maintained. Employers are insisting upon good habits on the part of all whom they engage. No man is intrusted with difficult or dangerous duties unless it is assured that he is temperate, for the intemperate man may fail at the supreme moment-fail in judgment or physical capacity.

The business aspect of the temperance movement is the most powerful. It is this end of the proposition that. is carrying weight chiefly to-day. In the specializing of industries, the man who succeeds must have not only capacity for his particular calling, but a moral quality to insure that he can and will use his abilities to the fullest extent. The engineer on the railroad is simply a type of the present requirements. He must be completely master of himself from the start to the end of his run. Lives are intrusted to him on the strength of his reputation as a sober man, as well as a skillful engineer. Had Engineer Bush been drinking before the accident at Bristol he would have been remembered in the railroad world as a man recreant to his trust, who had sacrificed the lives and property intrusted to him through his selfish indulgence. His insistence upon proving himself true to the faith placed in him is an eloquent example of what a man should be, and it is to be hoped that this incident will become known not only in every railroad roundhouse, but every business establishment in the United States.

> Unfortunately there is every indication that the law cannot be taken at its face value and that the only provisions in it which are really effective were tacked on by the temperance people and are wholly displeasing to the liquor men. This is the view which the Anti-Saloon league takes of the matter and it is in a good position to judge. The character test portion of the law, it is thought, will be held econstitutional, since it compels a man to give testimony which would convict himself, thus violating a provision of the bill of rights. As for the last clauses of the measure, which provide for certain search and seizure measures, these were added by the anti-liquor forces against the violent protest of the original sponsors of the bill. President Promises the Support of the Administration, But Will Not Btand for Any "Pork Barrel"-Sherman, Cannon and Dickinson Pledge Aid.

New Orleans, Nov. 1 .- Ringing demands for "14 feet through the valley" and elaborate argument in support of the program for the creation of a deep waterway from the lakes to the gulf have marked the great convention of the Deep Waterway association that opened here Saturday.

President Taft, Vice-President Sherman, Speaker Cannon, governors of the Mississippi valley states, innumerable senators and representatives and a mighty throng of private citizens who believe in the big river project are here and all urge that it be undertaken and carried to a speedy con-

#### President Taft Promises Support.

President Taft, who arrived in New Orleans escorted by a great flotilla, after an illuminating trip down the Mississippi river from St. Louis, landed from the lighthouse tender Oleander about eight o'clock Saturday morning, and was driven to his hotel through streets that were canopied with magnolia barnches, palmettoes and southern moss, and everywhere the mottoes "Fourteen Feet Through the Valley" and "River Rate Regulation Is Rate Regulation." the Athenaeum in the afternoon the president aroused a storm of cheers by promising that if the 14-feet project proved feasible and advisable, the present administration would favor the issuance of government bonds to defray the cost.

#### Not for a "Pork Barrel."

At the same time Mr. Taft made it plain that he would not stand for any plan to make a "pork barrel" of the project. He said he opposed any such general bond issue of \$500,000. 000 or \$1,000,000,000 for waterways improvement, the money to be cut up and parceled out to different sections. He declared that the improve-

ment of waterways had been carried forward in a haphazard fashion in the past, and that a new method should be adopted.

"I believe in the deep waterway," said the president. "I am for it, and shall use all the power that I possess in doing what may be accomplished to give you citizens of this great valley what you so earnestly desire. It is all a part of a still greater movement inaugurated by Theodore Roosevelt, and properly called by him the conservation of our national resources.

"The projects for irrigation and for the improvement of waterways in the future are not to be for the purpose of distributing 'pork' to every part of the country. Every measure is to be adopted on the ground that it will be useful to the whole country. They are not to be adopted for sending certain congressmen back to Washington or for making certain parts of the country profitable during the expenditure of the money.

"We should take up every comprehensive project on its merits and determine whether the country where the project is to be carried out has so far developed as to justify the enormous expenditure of money and if it will be useful when done. When we decide in favor of a project, I believe in issuing bonds to carry it to completion as rapidly as possible. It has

Sherman, Too, Is for It. Vice-President James S. Sherman has brought to the people of the middle west the message of the east, promising enthusiastic support of the waterway program. "We people of the east depend on your people of the west," said he. "When we help you, we help ourselves, so there is every reason why we should do all in our power for you, as soon as we realize what you want and why you want it." Speaker Cannon and Secretary of War Dickinson are no less outspoken in their assurances of support, and many senators and representatives, among them Senator Lorimer of Illinois, the father of the deep waterway movement, this afternoon made ad-

convention to order Saturday morning and set forth briefly the aims and plans of the organization. He said the deep waterway work is now in this condition:

1. The sanitary district of Chicago has built the deep waterway, practically to Joliet, nearly 40 miles, and \$60,000,000 have been spent thus far on the work.

2. The entire route of the lakes-tothe-gulf deep waterway from Joliet to New Orleans, through the Des Plaines river, the Illinois river and the Mississippi river, has been surveyed under direction of congress by United States engineers, who have officially reported to congress that the building of the deep waterway is feasible.

3. The people of the state of Illinois have adopted a constitutional amendment providing for a bond issue of \$20,000,000, the money to be spent in constructing the deep waterway southward from Joliet.

4. A bill introduced by United States Representative Richard Bartholdt of Missouri is now pending in congress, United States government of bonds to quake. the amount of \$500,000,000, the money to be spent in constructing this deep waterway from the lakes to the gulf and other meritorious projected river improvements.

5. It is intended to ask the Sixtyfirst congress to pass a bill providing definitely that the United States government undertake the construction of the deep waterway from the point where the Illinois work will end, to the Gulf of Mexico.

In the afternoon, following the address of President Taft, Clifford Finchot, head of the government forestry department, made an address on the conservation of the nation's natural resources.

#### Philately of Aviation.

One of the very few genuine "varieties" in stamps is announced. It would be more correct to say it is a rare postmark. Rare it will be if interested parties did not take advantage of the occurrence and have addressed to themselves thousands of envelopes bearing the mark. It seems that during the now historical aviation week at Rheims a temporary postoffice was set up on the aviation ground and all letters there posted bearing the ordinary French stamps were postmarked "Betheny-Aviation," besides the various service marks. The marking stamp was hexagonal instead of round. These stamps will, no doubt, be curiosities. Time will tell whether they will be sought after like the unnecessary Brunei provisionals, which in the aggregate must have fetched just as high a sum as the year's revenue of the swamp in which they were issued.

Mutineers Display Great Valor, But Are Driven Off By Cannon Fire From Battleships.

Athens.-Historic Salamis, where 20 centuries ago Themistocles gained a memorable victory over the Persians, was again the scene of a naval battle

There were 20 minutes of fighting Friday afternoon between field batteries and big warships on the one side and the mutinous band of naval officers which quitted the capital Wednesday

with torpedo boats, on the other. The first shots were fired soon after o'clock and a sharp exchange of shells followed. Some of the projectiles struck the arsenal buildings, but only one shell hit a torpedo boat-the Sphendona, which was immediately

enveloped in a cloud of smoke. During the action the torpedo boats gradually retired, steaming backward until they obtained the shelter of the headland, when the firing ceased. The rebel vessels, while the engagement was in progress, valiantly returned the fire of the warships and field batteries, but apparently little damage was done on either side.

The rebels were led by Lieut. Tibal dos, and are reported to have num bered 300 men.

An official statement says that the arsenal, which was in the hands of the rebels, has been recaptured and that the mutinous torpedo boats are expected to surrender.

#### THE EDITORIAL NIGHTMARE

How dear to my heart are the verses they send me when Pro Bono Publico bobs into view! I think at some stages the business will end me. for, spite of the hemorrhage none of it's new. The verses called epics the line from "Reformer," the man with the doggerel forty yards long; the spring ebulitions on flowers and birdlets-O what makes some people e'er burst into song? The torrent of versec, the dead loads of verses-the amateur verses so endless and long.

May Have Been Asleep. The man who cannot remember the text or aught of the sermon is hypnotized or has worked himself into a trance, and sleepiness and inability to tell what the preacher has said must be considered as an indication of a piety that has passed beyond the control of its possessor or of attention so acute that it concentrates itself on the words and face of the speaker, to the disregard of thought expressed by words.-Christian Advocate.

#### Beware Becoming Wet Blankets.

The pessimist wears a face that looks as if it had gone through the wash-wringer. She casts spells of weariness about and forecasts gloomy weather. We all have troubles enough to make us glum and wretched, but we also have joys enough to make us cheerful. Why let the glum and the grouch get possession first? The Lord dry up.

An artist had finished a landscape; on looking up, he beheld an Irish navvy gazing at his canvas. "Well," said the artist, familiarly, "do you suppose you could make a picture like that?" The Irishman mopped his forehead a moment. "Sure, a man c'n do annything if he's druv to ut!" he replied.

#### Keeping Friends.

It is one thing to make friends, but quite another to keep them. Remember that friendship will not thrive on discourtesy or neglect. Little courtesies and attentions to those with whom we are most intimate help to smooth and sweeten life .- Home Chat.

It is said that no man can tell a fib and keep his big toe still. If the wom en will induce their husbands to take off their shoes before they begin to question them they can catch them in a falsehood every time.—Atchison
